General fees payable for our financial advice. In some circumstances PFG charges fees for service provided. All fees will be discussed and agreed in advance (where possible).

Fees could include: -

- An upfront commission where one is not offered by the provider of the loan we have sourced for you.
- A general admin/advisory fee, starting at \$495 per transaction, plus \$25 AML certification per entity certified. Complexity fees for transactions requiring increased time/advisory (such as progressive builds) of up to a further \$495.
- Loan pre-approval expiration, or after a pre-approval extension, or when there is no clear indication of proceeding.
- Your loan being repaid or expected to be repaid in a timeframe that Banks insist on a commission claw-back. Any fees will be discussed in advance or as soon as we know a claw-back has been triggered.
- Any advisory services provided that do not result in a commissionable transaction for PFG. Cost being \$325/hr + GST/if ratable.
- Fees charged in advance will be outlined and agreed within a Statement of Advice (SoA) or T&C's Agreement, email communication, where they'll be pre-determined and will vary depending on the work provided.
- Typically, PFG does not charge any direct fees for organizing insurance related products. If it becomes clear during our advice based, consultative process, that a client's needs require complex advisory and additional time, PFG reserves the right to charge an administrative, complexity fee of \$150 per policy arranged. This will be disclosed and agreed with each client ahead of the additional work being commenced and cost accruing.

Claw-back on-charge, cost recovery fees & commission rates received

- Any loan arranged by PFG repaid within 28 months of settlement/drawdown (the present bank specified claw-back period) may have all or some of the upfront commission clawed back by the provider. This can range from 25% to 100% of the original commission paid by the provider. Commissions range between 0.55% to 1.00% of the loan amount approved.

To ensure PFG is fairly compensated for the services initially provided, we may seek recovery of some or all of the cost via a claw-back recovery on-charge. Our claw-back on-charge will be the full/pro-rata commission clawed back by the Provider, or based on time spent on the transaction, calculated at our flat rate of \$325/hour + GST - PFG's standard consultancy cost.

Where commission payments are sizable, PFG can elect at times, to not originally invoice a client for additional consultancy work undertaken in the process of arranging lending. In the event a claw-back is received on lending that included consultancy income offset, PFG reserves the right to also on-charge for that originally unbilled consultancy work, as part of the cost recovery associated with the claw-back.

- There is no claw-back on a portion of funding where PFG charged an upfront, client direct service fee for arranging that loan portion.
- PFG's adviser will openly disclose to each client, the present commission percentages paid by each Bank at the time a client signs our specific Client Terms & Conditions "T&Cs" Agreement, to commence work.
